

Gagecast **Interior Wall Panel** Cleaning Instructions

To remove heavy soil or debris use a vacuum with a soft brush, compressed air nozzle or soap and water with a soft brush are recommended. If soap and water are used dry quickly after cleaning, do not soak in water.

For dust, a soft dust rag or a feather type duster will work.

General cleaning, use a mild soap with a soft cloth, changing the cloth often. Do not use any abrasive cleansers. Wipe dry with a soft cotton cloth.
